SIZING GUIDE

Get the Perfect *ShoeShield* Fit!

Before Ordering:

Most bell boot brands use the boot's dimensions for their size charts. We have found that sizing by the horseshoe size is more accurate. Pick up your horse's foot to find the number on the bottom of the shoe, then match that number to the ShoeShield size below.

> *Shoe sizes are based on Kerckhart brand, and some boot sizes may overlap depending on the horse's conformation.*
> *For an accurate fit, see the ShoeShield measurements by size below.*
